TRACEVAULT AI — Incident Investigation Report

Generated: 2026-10-25T02:50:43.223853+00:00

Assessment: Review recommended

This is a decision-support report. Rule matches are indicators for human review, not proof of compromise.

Evidence inventory

Filename	SHA-256	Size (bytes)	Collected at
Apps on Realme x7 Pro.txt	d5a312bafa3c6bc78f03...	714	2026-10-25T00:44:17.50599

Suspicious indicators

Time	Severity	Rule	Reason	Review status
2026-10-24T09:05:00+05:30	High	Privilege change	The event text contains a permission or privilege-change indicator.	Open
2026-10-24T09:08:00+05:30	High	Unusual file activity	The event text contains a mass-change or encryption indicator; validate a	Open against normal business activity.
2026-10-24T09:09:00+05:30	Medium	Failed authentication	A failed-login indicator appears in the event. A single failure is not proof	Open of malicious activity.
2026-10-24T09:10:00+05:30	Medium	Multiple source IPs	The same username appears with multiple IP addresses in this upload. VPNs	Open, travel, NAT and shared sys

Event timeline

2026-10-24T09:02:00+05:30 | login_success | user=accounting.user | asset=acct-ws-03 | source=auth.log | Successful login from an unfamiliar demo IP address.

2026-10-24T09:05:00+05:30 | privilege escalation | user=accounting.user | asset=acct-server-01 | source=audit.json | Admin role granted in synthetic test event.

2026-10-24T09:08:00+05:30 | mass file modification | user=accounting.user | asset=acct-share-01 | source=file-events.csv | Mass file modification observed in synthetic test data.

2026-10-24T09:09:00+05:30 | failed login | user=backup.operator | asset=acct-server-01 | source=auth.log | Authentication failure; synthetic demo event.

2026-10-24T09:10:00+05:30 | login_success | user=accounting.user | asset=acct-ws-03 | source=auth.log | Same demo account observed from another IP; may have benign explanations.

Limitations

Hashing can reveal post-collection changes when compared with a trusted recorded hash, but does not establish original authenticity, timestamp accuracy, or legal admissibility. Missing logs cannot be reconstructed. Validate findings with an authorized professional.
